

FTP Testing

Documents to upload by 16/08/16 2359h:

1. PPT Slides for Finals (PDF format)
2. Written Report (PDF format)

FTP:

Open File Explorer

Enter server domain name, prefixed with ftp://

-> ftp://grp8-15@projectsday.hci.edu.sg

Enter userid and password

Copy required documents to folder

Proceed to the school project server

->http://projectsday.hci.edu.sg/2018/05-Report/content.html

Check that documents are uploaded correctly

Dear Students,

As you work on your project from end of term 2 and June holidays onwards, it is a good idea to note down and archive your progress and other information so that all the important points are noted. This would lead to a better quality written report. Hence, this EMB message is to illustrate how to FTP your written report.

All project groups have to upload their written reports for evaluation. The written report is allocated 20%. Please refer to the respective section in project work Google Sites for details:

<https://sites.google.com/hci.edu.sg/hs-pw/home>

Every group is to upload two documents (in PDF format) to the school server using ftp:

- The ppt slides used for project final evaluation (in PDF format).
- The written report (in PDF format).

Please follow the instructions as listed in the project work Google Site: <https://sites.google.com/hci.edu.sg/hs-pw/home/uploading-of-project-documents-instruction>. Please note that the leader must test out the ftp process as described in the link above by entering the user id (grp id) and password (leader's IC number) by the end of term 3 week 1 (1 Jul 2018). We will not entertain any excuse of the leader when you miss the deadline for uploading of the written report through technical difficulties of logging in to the school server, as we had instructed you to check during the Jun holidays and first week of term 3.

IMPORTANT MESSAGE: The deadline for written report to be submitted is 16 Aug 2018, 2359 hour. Report submitted after this deadline will be awarded 0 mark and no appeal will be entertained.

Please email Mr Selva (selva@hci.edu.sg) or Mr Huang Guangdi (huanggd@hci.edu.sg) if you have issues with userid and password for FTP issues. Please keep me in the email loop via cc.

The FTP application software is also available in our school computers in the Computer Labs or you can download free versions from the Internet.

If you need help with FTP upload, please seek help politely from:

- 1) Your infocomm teachers,
- 2) Your seniors who had done it before,
- 3) IT executives (Mr Lin or Mr Chen Dong Xing) at the Computer Lab Office (Tech Centre).

The project leader of every group is responsible for uploading of their written report. The leader is to login with their group ID (i.e. grp1-23) and IC number (i.e. T1234567A). The list of FTP project group leaders can be checked at this link:

<http://projectsday.hci.edu.sg/2018/01-Admin/2018 PW Leaders.htm>

After you have FTP your files, all members in the group should check that your written report pages have been uploaded successfully from the following link: <http://projectsday.hci.edu.sg/2018/05-Report/content.html>

Please take note of plagiarism and copyrighted issues seriously. If you have taken or lifted portions of someone else work, it must be acknowledged. Severe punishment await those who flout this rule.

Don't wait too long..... Start working on your written report and slides so that you will not forget the details of your project work as it progresses from now on.

All the best and do also take time to re-charge and refresh during this June Holiday,

Dr Chia Kok Pin
2018 Project Work Coordinator
